# VICOSTONE® SINTERED SURFACES

At VICOSTONE®, we strive for excellence and are dedicated to redefining the limits of surface innovation, delivering the perfect fusion of beauty, functionality, and sustainability. With great pride, we introduce the next evolution in our legacy: **VICOSTONE® Sintered Surfaces.**

Crafted using the most advanced European technology and enhanced by our revolutionary technology, VICOSTONE® Sintered Surfaces sets a bold new benchmark for surface design and performance.

Engineered to meet the highest demands of modern living, it is the ideal surface solution for both indoor and outdoor applications.

Our commitment to excellence ensures that this remarkable material delivers unrivaled durability and aesthetic appeal without compromising on environmental sustainability.

Experience the future of surface design with VICOSTONE® Sintered Surfaces, where innovation meets perfection.

# Advantages

## MULTIPLE THICKNESS OPTIONS

A thickness of 6mm (special order) for floors, 12mm for walls and 20mm for countertops.

## MADE IN

We manufacture in the European Union, meeting all the quality standards.

## WATERPROOF

Less than a 0.08% of water absorption and zero odour absorption.

## SCRATCH RESISTANCE

For countertop use, it has a high resistance to scratches.

## LARGE FORMAT

3240mm x 1620mm (127 1/2" x 63 3/4") formats for furniture, countertops, facades, etc.

## 100% NATURAL

100% of the raw materials used in production are natural minerals.

## UV RESISTANCE

Ultraviolet resistance and surface colour stability over time.

## HYGIENIC

Extremely easy to clean and resistant to chemicals, bacteria and fungal proliferation.

## LOW TEMPERATURE RESISTANCE

Low temperature and frost resistance makes it suitable for outdoor use.

## HIGH TEMPERATURE RESISTANCE

A fire-resistant and non-combustible material that allows contact with utensils at high temperatures.

## STAIN RESISTANT

Thanks to the advanced technology, Vicostone Sintered Surfaces are highly resistant to stains.
